EXPERIENCE

AI Automation Engineer — Because

Dec 2025 – Present

- Working at a digital marketing company where AI is the center of the work, not a bolt-on tool.
- Own AI workflow automation, voice AI, AI content pipelines, API integrations, internal AI products, and cloud-based AI systems — mapping real business needs into deployed, monitored AI workflows.
- Currently deepening production AI expertise: AWS, Bedrock, FastAPI, IAM, Lambda, S3, OpenSearch, AI architecture, and data engineering.

PROJECTS

AI Lead Qualification

- Chatbot + OTP + Voice AI + SIP + analytics dashboard — automating customer communication end to end.

Workflow Automation

- Production automation workflows including 650+ songs, 600+ slides, WhatsApp automation, and AI media pipelines — reporting and data-processing automation at scale.

AutoGrade

- OCR + AI grading for handwritten answer sheets — automated evaluation of large volumes of submissions.

Distributor Personalization

- Personalized creative generation and automated distribution.

Founder Video Automation

- Telegram → AI script → ElevenLabs → HeyGen → AI B-roll → FFmpeg → final social video, end to end.
